

Unlike some websites, NY State MLS & My state MLS is designed to work on computers, tablets, and smart phones. To use the site while on the go, simply log in use your device's browser.

Step 1: Open your favorite browser on your phone or tablet and enter the MLS URL into the address bar. (nystatems.com or mystatems.com)
Once loaded, the site "transforms" to the size of your device's screen to display correctly.

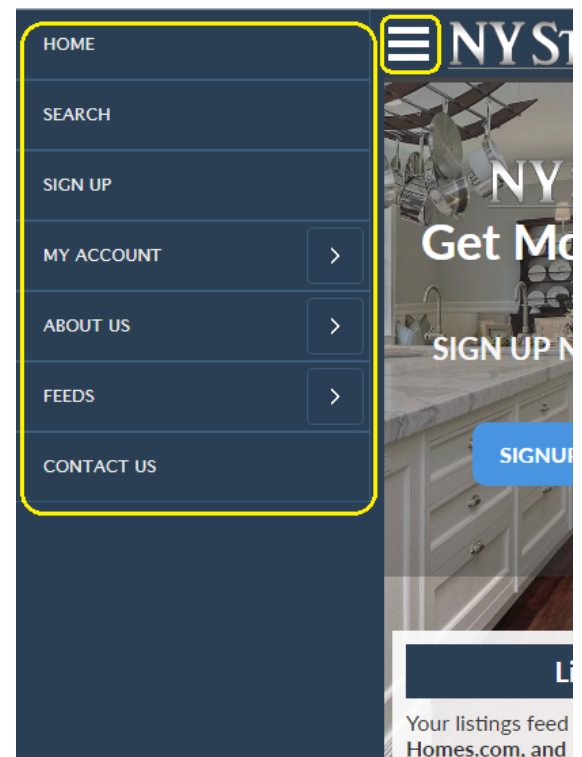

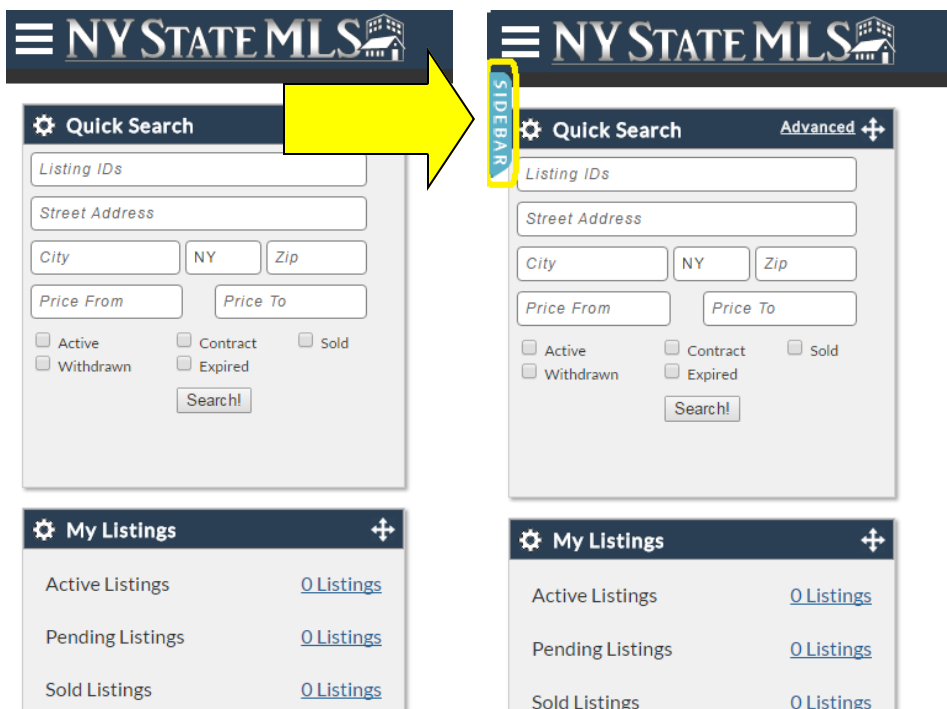

Step 2: While browsing the MLS on your phone, you will notice there is no menu across the top of the screen.

To navigate, use the Menu Button on the top left corner of the screen; noted by three white lines.

Step 3: After clicking on the Menu Button your options will slide out. You can now navigate through the site.

Step 4: All pages of the MLS can still be found from the Menu Button. To navigate to other sections of the site, repeat the above steps to navigate to other sections of the site.

Step 5: Depending on you screen size and resolution, you may not be able to use the side bar.

If your screen size allows the sidebar, the option will appear on screen.
